Place

Includes
information
about Rutland's
new Minor Illness
and Injury Service

The NHS is making it easier for you to get help when you need it quickly in Rutland, for situations when it isn't life threatening, with two simple steps.

In this booklet you can learn more about the two steps, the services you will benefit from by following them, and other local services. You will also find details of Rutland's new Minor Illness and Injury Service on page 11.

This guide is designed to be a quick reference guide for you to keep handy for when you need help fast. You can find more detailed information on our website.

Need help fast? Get the right NHS care in two simple steps

Step 1: Try Self Care First

If your problem is minor and you haven't been able to treat it yourself at home, try:

The NHS App
or nhs.uk

NHS 111
online

Your local
pharmacy.

These services are quick, easy, and often all you need.

Step 2: Need More Help?

If it's more serious or Step 1 didn't work:

Contact your
GP practice

Or call NHS 111
(when your GP is closed)

They'll help book the right appointment for you.

If it's a **life or limb-threatening emergency**, go straight to the closest **emergency department** or call **999**.

In a **mental health crisis**, call **NHS 111** and select the mental health option. This service is open 24 hours a day, seven days a week.

What is the right care?

So that NHS resources are being used in the best way for everyone, the NHS aims to match each patient to:

- ✓ the right level of care,
- ✓ from the right health professional,
- ✓ in the right part of the NHS, first time.

We call this right care, right place.

**Right
Care,
Right
Place**

Making general practice and NHS 111 the gateway to care will ensure we understand the symptoms of every patient, so the right appointment is booked. This reduces the need to travel to walk-in services that might not be suitable or have long waiting times.

You should only use 999 or go to the emergency department in a life or limb-threatening emergency. If you go to the emergency department and it isn't the right place for you, you may be asked to use another service instead. If it isn't life threatening, you are advised to use your GP practice or NHS 111 before setting out.

If you have hearing loss, are deaf or have difficulty communicating

- Contact NHS 111 by dialling 18001 by textphone or the Relay UK App (www.relayuk.bt.com). British Sign Language (BSL) users can use the NHS 111 BSL interpreter service.
- Call for an ambulance by dialling 18000 by textphone or the Relay UK App (www.relayuk.bt.com).

Digital first where you can

The NHS is introducing more digital and online ways to use the NHS – for appointments, medication and information. We know this won't be suitable for everyone, but where you can, we ask that you consider whether there is a digital option you can use, first. This will free up traditional methods of using the NHS, for example telephone lines, for people who aren't able to use digital options.

Scan the QR code to find out more about right care, right place and how the NHS is going digital.

Step 1

Self care

If you are generally in good health, you can look after minor illnesses and injuries yourself. This is known as self care. In most cases minor illnesses will get better by themselves, so you don't need to use your GP practice or another NHS service.

NHS 111 online

Visit 111.nhs.uk to find out where to get help for your specific symptoms or general health information and advice. You can also NHS 111 in the NHS App (Services section).

NHS App

The NHS App is a simple and secure way for people to get to a range of NHS services on their smartphone or tablet, including getting health advice. It is available to download on iOS and Android devices.

You can browse health information on the app by looking for 'Services' then 'Find health information'. You will find the same information online by visiting nhs.uk.

Pharmacy

Pharmacists are qualified health professionals and are the right people to see if you need advice about minor illnesses and medicines you can buy from the pharmacy without a prescription.

They are trained in dealing with many illnesses. They can check your symptoms, recommend the best treatment, or just reassure you. Some of the problems they can help with are coughs, colds, sore throats, earache, and other aches and pains. They can also tell you when you need to see a doctor or nurse.

Many of us live near a pharmacy and you don't need an appointment to speak to a pharmacist. They are often open in the evenings and at weekends, so they offer fast, convenient support.

Most also have a private consultation room, so you can have a conversation where other people can't hear you.

Your GP practice may also book you an appointment here if it is the right place for you (see page 10) or you can walk into a pharmacy and ask for one.

Scan the QR code to read more about self care on our website, including:

- Useful first aid items to keep at home
- Self care advice for common conditions
- How to use the NHS App
- How pharmacies can help.

Step 2

GP practice or NHS 111

A GP practice is a team of health professionals who oversee all aspects of your physical and mental healthcare throughout your life. You should contact them for medical advice and treatment for conditions you can't treat yourself or that aren't getting better.

Standard GP practice opening times are 8am to 6:30pm Monday to Friday, excluding bank holidays.

You can usually contact your practice in three ways:

By telephone

Using an online form on the practice's website or the NHS App

By going into the practice in person.

When your practice is closed, use NHS 111 instead – by calling 111, visiting NHS 111 online at 111.nhs.uk or using the NHS App (Services section).

If you need to be seen on the same day

If you need to be seen on the same day, your practice or NHS 111 will arrange an appointment for you in one of three places:

- ✓ Your own GP practice (see below)
- ✓ A pharmacy (Pharmacy First)*
- ✓ Rutland Minor Illness and Injury Service (including evenings, weekends and bank holidays).
- ✓ A GP practice or health centre in Leicestershire (during evenings, weekends and bank holidays)

* In some cases, you might be asked to go to these locations, rather than having an appointment booked.

You can read more about these four options below and on the next three pages.

Appointments at your own GP practice

An appointment will be made for you with the most appropriate member of the practice team. Those who are most seriously unwell or have the most complicated health problems will usually be seen by a doctor. There is also a varied mix of other highly skilled health professionals who will be able to help you, such as advanced nurse practitioners, clinical pharmacists, social prescribers and mental health practitioners. Your appointment could take place over the telephone, by video or in person.

Rutland has four GP practices: Empingham Medical Practice, Oakham Medical Practice, Market Overton Surgery and Uppingham Surgery. Uppingham Surgery has two branch surgeries in Gretton and Barrowden. Market Overton Surgery has a branch in Somerby.

Step 2

GP practice or NHS

111

Pharmacy First appointments

Your GP practice may arrange an appointment for you at a pharmacy under the Pharmacy First scheme. You can also go into a pharmacy and ask for an appointment.

Your local pharmacist can now offer treatment and provide prescription medicines for seven conditions, without the need for a GP appointment or prescription. This is known as Pharmacy First.

The seven conditions are:

- Sinusitis (for those aged 12 years and over)
- Sore throat (for those aged 5 years and over)
- Earache (for those aged between 1 and 17 years old)
- Infected insect bite (for those aged 1 year and over)
- Impetigo (for those aged 1 year and over)
- Shingles (for those aged over 18 years old)
- Uncomplicated urinary tract infections (UTIs) (for women aged 16-64)

Appointments at urgent treatment centres

Your GP practice or NHS 111 may offer you an appointment at an urgent treatment centre. There isn't an urgent treatment centre in Rutland but the closest ones are:

Corby Urgent Treatment Centre Cottingham Road, Corby, Northamptonshire NN17 2UR 8am to 8pm seven days a week
Loughborough Urgent Treatment Centre, Loughborough Hospital, Hospital Way, Loughborough LE11 5JY
Oadby Urgent Treatment Centre, 18 The Parade, Oadby LE2 5BJ
Merlyn Vaz Urgent Treatment Centre, Spinney Hill Road, Leicester LE5 3GH

Rutland Minor Injury and Illness Service

If you contact your GP practice later in the day, or NHS 111 during evenings weekends and bank holidays an appointment may be booked for you at Rutland's new Minor Illness and Injury Service, instead of at your own GP practice:

New from
April
2026

- Open 1pm to 9pm, seven days a week
- Address: Rutland Memorial Hospital, Cold Overton Road, Oakham LE15 6NT.
- They will be able to see your GP health record so will be able to give advice based on your full medical information.

Step 2

GP practice or NHS 111

Appointments at a GP practice or health centre in Leicestershire

Rutland residents also have access to same-day GP appointments in Leicestershire during evenings, weekends and bank holidays. The appointments will take place at one of eight GP practices or health centres:

- Monday to Friday: 6.30pm to 8.30pm
- Saturdays: 9am to 5pm
- Sundays and bank holidays: 10am to 2pm

Full address details will be provided when you book. Opening times may vary.

You may also get booked into one of these appointments if you go to the emergency department and it isn't the right place for you.

Other Services

Walk-in services

You can use some local services (shown on pages 14-17) on a walk-in basis, but you are advised to use your GP practice or NHS 111, before setting out, to make sure it is the right place for you to go.

Urgent Treatment Centres

Urgent treatment centres are for urgent, but not life-threatening, injuries and medical problems. Care is led by senior clinicians supported by a range of health professionals. They can provide some further tests on site.

Minor injury and illness services

These are nurse-led services providing treatment for conditions which are minor and not life-threatening.

Urgent treatment centres

Corby Urgent Treatment Centre Cottingham Road, Corby, Northamptonshire NN17 2UR	8am to 8pm, 7 days a week

Emergency Department, Leicester Royal Infirmary , Infirmary Square, Leicester LE1 5WW	X-rays available 24/7

Other Services

Emergency department

You should only use 999 or go to the emergency department if you think you have a life or limb-threatening emergency. If you go to the emergency department and it isn't the right place for you, you may be asked to use another service instead. If it isn't life threatening, you are advised to use your GP practice or NHS 111 before setting out.

Leicester Royal Infirmary	Leicester Royal Infirmary, Infirmary Square, Leicester, Leicestershire LE1 5WW
Kettering General Hospital	Rothwell Road, Kettering, Northamptonshire NN16 8UZ
Peterborough City Hospital	Edith Cavell Campus, Bretton Gate, Bretton, Peterborough, Cambridgeshire PE3 9GZ

Urgent dental care

If you need urgent dental care you should contact your usual dental practice for advice and treatment.

If you do not have a usual dental practice, or you need urgent dental care after 5pm on a weekday evening, or at the weekend or on a bank holiday, you can book an urgent appointment via NHS 111 online at 111.nhs.uk or by phoning 111.

Scan the QR code to find more information about urgent dental care.

Immediate mental health support

In a mental health crisis, call NHS 111 and select the mental health option, 24/7. You can also text 0748 063 5199 and a health professional will aim to get back to you within four hours.

There are neighbourhood mental health cafés spread around Leicester, Leicestershire and Rutland. They are run by trained and supportive staff, who are there to listen and provide practical support when you need it most.

If you are struggling with your mental health, they can help you make plans to enable you to feel safer and more in control, and explain who to turn to for help in your local community.

You can see the full list of locations and get the latest information at:

www.leicspart.nhs.uk/service/neighbourhood-mh-cafes

Scan the QR code to find more local mental health support.
